

City of Oregon GIS Presentation

Presented by:

MDES

MUNICIPAL DESIGN AND ENVIRONMENTAL SERVICES, INC.

City of Oregon GIS Presentation

- MDES was hired by the City of Oregon to locate and map the City's entire water system
- This included the locating and mapping of:
 - Water Lines
 - Valves
 - Hydrants
 - Meters

City of Oregon GIS Presentation

- Surveyors were sent to the City of Oregon and located 595 valves and hydrants.
- With the help of existing maps saved by the City, MDES was able to use the information collected from the field and create a digital map of the City's Water System.
